Jan,

Please search, including pending, the following from 09/484577:

SEQ ID NO:3
SEQ ID NO:4 against the nucleic acid database
SEQ ID NO:3 as an oligo... can we limit the size of the hit to less than 250 nucleotides?
SEQ ID NO:4 as an oligo against the nucleic acid database, again if possible limit the hits to those of less than 250 nucleotides.

Results on paper please.
Thanks!

Jessica H. Roark
